

GoBag

Custom Divers are pleased to announce that we are now the distributor for Europe for GoBag products and are happy to supply the retail market. Trade/reseller customers are also welcome to stock this great product.

GoBag

WORLD'S ONLY MAGNETIC SELF SEALING DRY BAG

NOT ALL DRY BAGS ARE CREATED EQUAL. WATERPROOF | 100 FT (30 M).
THE WORLD'S BEST GUARANTEE.

PROTECT YOUR PHONE, WALLET, KEYS, CAMERA AND MORE.

Perfect for Outdoor Adventures, Water Parks, River Adventures, Snorkeling, Map/Document Reading and Whenever Your Phone or iPad Might Get Wet.

FEATURES

WATERPROOF: Waterproof to 100 ft. (30 m) and magnetic double seal keeps out sand, dust-proof to a hermetic level.

TOUCH SCREEN READY: Manipulate touch screens, buttons and switches directly and easily through the GoBag.

FULLY FUNCTIONAL: Phones and electronics are fully functional through the dry bag, allowing for voice and audio without the need for headphones or audio jack.

WATERPROOF CAMERA: Turn your existing camera into an underwater camera. High-quality TPU (BPA-free) doesn't interfere with clear shots.

SELF SEALING: World's only foolproof and fumble free automatic magnetic closure ensures waterproof seal every time.

LIFETIME WARRANTY

- All GoBag Products are warranted against defects in workmanship and materials for the life of the product
- If there is a material breach caused by a defective GoBag, GoBag will replace the "Bag" plus up to 200 dollars of the bag's contents under certain criteria.
- This warranty does not cover improper use of the bag. This includes the following but is not limited to: the placing of sharp items in the bag, non rinsing of the bag between uses, overloading the bag with multiple items, the use of items obviously not meant for it's use, use above 140 Fahrenheit (60 Centigrade).
- GoBag can go up to the depth of 100 feet. Before submerging, check the manufacturer's suggested use and recommendations to ensure electronic devices or hardware can take the water pressure at the intended depth.
- The magnets in the magnetic closure do not interfere with consumer electronics (cell phones, tablets, music players, cameras), memory cards, credit cards, money cards, and hard drives. Do Not Place the magnets in close proximity to a traditional compass, Pacemaker, or other sensitive medical devices.
- Avoid sand, dirt, and other foreign objects.
- After use in salt water, rinse your GoBag with fresh water.
- Cleaning with chemicals will degrade plastics.
- After a long period of non-use, it is recommended to test product with tissue by holding underwater for a few minutes.
- In order to receive full refund:
 - Customer must call before returning to obtain a Return Reference Number.
 - Customer must inform GoBag where product was purchased.
 - Original GoBag must be returned to factory and fail upon testing.
