

SPORTSTER

By special request and following customer demand, Custom Divers have designed the Sportster wing system! With its streamlined and lightweight profile, (3.4kgs) the Sportster makes a perfect travel wing for the sports diver and is an ideal wing for single cylinder diving. The standard Sportster wing has a 35 lbs lift capability and includes a formed backplate with integral lift handle plus two tank bands. The comfort harness system comprises eight stainless steel D rings, height-adjustable chest strap, inflation hose retainers, crutch strap/scooter ring and hose wrap sleeve. The system can also be customised to suit individual needs by adding optional extras, ie. comfort pad, integral weight system and accessory pockets.

Ⓞ Two adjustable cylinder bands for single system setups. Ⓞ

Ⓞ Adjustable anti wing wrap stay. Ⓞ

Optional Features

Ⓞ Utility pockets. Ⓞ

Ⓞ Comfort back pad. Ⓞ

Ⓞ Quick release weight pocket system. Ⓞ

CDWQRP	QUICK RELEASE WEIGHT POCKET SYSTEM
CDWBR	BILLY RINGS

SPORTSTER-M

The Sportster-M has a new, smaller sized, harness to suit children from 7 upwards and is also ideal for petite adult divers. Like our standard Sportster, which is already proven as an outstanding lightweight and compact system suitable for adults, the new Sportster-M is available with our standard inflate/deflate valve but with a shorter 13" corrugated inflator hose and smaller harness which may be adapted to grow with your child until they wish to upgrade to a larger harness or different wing system. This harness is also available separately and may be tailored to fit our other wing systems.

The Sportster-M wing is identical to our original Sportster, streamlined and lightweight and, weighing just 2.9Kg, it makes a perfect travel wing for the sports diver and is an ideal wing for single cylinder diving. Like the Sportster, the Sportster-M wing has a 35 lbs lift capability and includes a formed backplate with integral lift handle plus two tank bands. The smaller comfort harness system comprises six stainless steel D rings, height-adjustable chest strap, inflation hose retainers, crutch strap/scooter ring and hose wrap sleeve. The system can also be customised to suit individual needs by adding optional extras, ie. comfort pad, integral weight system and accessory pockets.
