

## TCW WINGS

(with Tech Harness)

The TCW cordless wing format offers enhanced dump control, greater streamlining and reduced servicing and may be upgraded from a single to twin bladder system. Includes integral D-Ring for redundant inflate or lightweight accessory stowage. Wing (Bladder Assembly) 330 N (76 lbs) buoyancy capability per bladder. The TCW is a low profile wing system with pull down remote exhaust valve and an elasticated cordless side panel for controlled, even deflation. The back panel of the wing has webbing slots for single and twin tank mounting and back plate height adjustment holes. The backplate is available in stainless steel or aluminium and is multi-holed to allow any configuration. The technical harness is one size, fully adjustable with adjustable D-Rings & Billy rings. The harness is fully adjustable from both shoulders with single or dual shoulder break points. All units are delivered fully assembled and complete with shoulder covers, hose wrap sleeves, accessory pouch, Billy ring, crotch strap/scooter ring.
