

VBS WINGS (with Tech Harness)

The VBS has three expandable compartments offering variable buoyancy capability, adjustable slimline neck, extended back panel width and is an ideal fit for most rebreathers. The buoyancy capability per bladder is 31-47 lbs. The VBS is a low profile wing system with pull down remote exhaust valve and an elasticated and cordless side panel for controlled, even deflation. The backplate is available in stainless steel or aluminium and is multi-holed to allow any configuration. The technical harness is one size, fully adjustable with adjustable D-Rings & Billy rings. The harness is fully adjustable from both shoulders with single or dual shoulder break points. All units are delivered fully assembled and complete with shoulder covers, hose wrap sleeves, accessory pouch, Billy ring, crotch strap/scooter ring.
